

Universal Crane Mats Ltd

www.universal-crane-mats.com

Heavy Duty Fabricated Steel Mats

- High quality production by fabricators experienced in the production of crane mats
- All mats feature plates noting SWL, weight, size, unique ID No. and source / date of production. Your company name can also be added to this label on request
- Unique Industry leading Safety Grip finish to reduce slippage available as standard on upper face of mats where client selects marine paint finish. Red oxide budget finish can be specified if preferred
- High load bearing capacities and design rigidity, ideal for heavier crane applications
- Design service offering bespoke solutions to suit clients exact requirements
- Standard fabrication detailing includes corner lift points and stacking guide plates
- Central mat loading / full underside contact area design as standard (see example design specification below)
- Full bridging design and option to position outrigger anywhere on the mat also available
- Bespoke requirements accommodated...contact us to discuss your requirements

Large range of standard mat sizes / designs...see below for examples;

Length (Metres)	Width (Metres)	Depth (Metres)	Area (m ²)	Capacity (Tonnes)	Weight (kg)
2	1	0.112	2	100	540
1.5	1.5	0.112	2.25	80	500
2.4	1.2	0.12	2.88	80	560
1.74	1.74	0.112	3.02	100	620
2.4	1.4	0.12	3.36	80	650
2.8	1.2	0.12	3.36	80	660
2	2	0.19	4	150	1250
3	2	0.19	6	150	1634
4	1.74	0.2	6.96	150	1650
6	2	0.2	12	150	2400
3	2.2	0.22	6.6	180	1700
